Expeditions became too expensive for most to buy (600 dollars a copy!) there has been a void in the overlanding book arena. This book covers all of the details from building and equipping the vehicle to the expedition or travel itself. Part of the book comes from his other titles (Sahara and Adventure Motorcycling) but there is loads of new content as well. I highly recommend the purchase of this book. 4 of 5 people found the following review helpful. If only I had owned this twenty years ago!

By David Marsland Having struggled across the veldt and deserts of Southern and Eastern Africa in a variety of pick-ups, landrovers and cruisers for a decade starting in the late 80's, I decided to reawaken this pastime in retirement. In preparation for that auspicious day I started looking for information on how to do overlanding the right way. Out of the few books I purchased this towers above the rest. It is truly comprehensive in its extent. It offers advice to the beginner and hints and tips for the more experienced. It doesn't dwell on expensive gadgets for gearheads, but looks at the basics of overland travel, the best vehicles for the job, the accessories you will need and potential routes you may consider. A little more about using American built vehicles would be useful for the overlander in the Western Hemisphere. There are a lot more 4 wheel drive vehicles on the market now than there were ten years ago, some more information about using these would also be useful. Perhaps in the next edition?

By Tommy Cahill Written for adventurers! Should be in every adventurers library! I have found the information contained herein priceless. A joy to read and extremely educational. Highly recommended to one and all. "Adventure before dementia"!!!

Chris Scott and his band of globetrotting contributors and specialists have put together the definitive manual for planning and undertaking a vehicle-dependent overlanding adventure across the wilds of Africa, Asia and Latin America. The Overlanders' Handbook is written in the same entertaining yet clear jargon-free English for which Chris's other books are known it doesn't assume you know your plug gap from a radiator cap. Planning When to go; typical costs; documentation; sponsorship; early overland journeys. Vehicle choice and preparation The Overlanders' Handbook is the most comprehensive account in print, covering everything from adapting a cheap car to equipping a campervan or 4x4 for months on the road, or even building and outfitting your own accommodation module to mount on an all-terrain truck chassis. Life on the road How to handle dodgy borders, haggle over a purchase, treat a dodgy stomach and cope with crazy driving conditions. Guidance on wild camping; navigation and mapping strategies; onward shipping; advice for solo women overlanders; travelling with children or with pets; vehicle repairs and troubleshooting; and off-road driving techniques. Continental route outlines Guidelines on both popular and obscure overland routes through Africa, Asia and Latin America. Includes fuel prices, easiest borders and best seasons, visa strategies, danger zones and regional highlights. Overlanders' Tales Half a dozen accounts of global adventures lasting months or even years in vans, 4x4s and all-terrain trucks from contributors aged from 9 to 69. 'mandatory reading' - Overland Journal. 'I cannot recommend this book highly enough. It is the first word, the last word, and if there is such a thing, the middle word, on overlanding.' - SA 4X4 magazine. 'Essential reading... refreshingly jargon-free' - 4x4 Mart. 'A must for any budding overlander' - Land Rover Monthly. 'Buy this book ... and turn your overland dream into a reality' - Land Rover World
