Books for Hiking the Pacific Crest TrailBy Monty TamI have hiked over 10,000 miles on the Pacific Crest Trail. Every year I buy four Wilderness Press books, cut them into sections and put them in my resupply boxes. None are all inclusive for my needs. That does not exist.

The Pacific Crest Trail: Southern California, Northern California, and Oregon/Washington and the Pacific Crest Trail Data Book, all four by Wilderness Press. They tell me where, I am going, how to get there, side and alternate routes (a huge plus), histories, points of interest and much, much more. These books give me much more than a simple point A to B sterile hike. Author, Ben Schifrin, and editor, Roslyn Bullas, are active in the hiking community and show a genuine concern for helping the trails and the hikers both. I also use each year Yogi's Pacific Crest Trail Handbook. Author Jackie McDonnell (Yogi) is the #1 authority on how to hike the Pacific Crest Trail and she also passes on information from 500 other recent thru hikers including me. It will save you \$100's of Dollars and 100's of hours. Buy it at [...] And I also use the free to print [...] maps by my friend Halfmile. The size and detail make it the best map for hiking the PCT. 0 of 0 people found the following review helpful. Bought it on the thought of planning a backpacking trip ... By Christ 1.
