Paddle for your lifeBy NigelInteresting book, an amazing adventure, Don Starkell is obviously a force of nature, he is lucky that they made it that far, I think he would have to agree that in some cases it was more luck than planning or skill. A very interesting read for any would be explorers and armchair adventurers alike.0 of 0 people found the following review helpful. though it gets a bit boring at timesBy FritzelInteresting and informative book, though it gets a bit boring at times.0 of 0 people found the following review helpful.
