By Eval love visiting Palm Springs and I bought this as a memento of my trips to the area. I flipped through several books on Palm Springs and this one is the most extensive of them all, it really covers every neighborhood I've seen. I get a sense that the author tried to preserve the architecture as it looks in the present. Fantastic photographs of mid-century architecture taken all over this beautiful city, the other books don't cover nearly as much ground or architectural details as this one does. 9 of 9 people found the following review helpful. Great Coffee Table Book By Plapper First and foremost, this is a great coffee-table-book that will invoke the curiosity of enthusiasts and non-enthusiasts alike. The lay-out is simple, and easy to view making for an "easy read". The pictures are beautiful and visually stimulating, leaving little need to explain. Overall, this book certainly exceeded my expectations. 1 of 1 people found the following review helpful. A Must for Everyone Who Loves Palm Springs! By Nick F This is a very fun book that captures beautifully the spirit and the energy of the Palm Springs architecture that became a city trademark from the post-World War II years until the mid 1970s. The unique buildings, both residential and commercial, are a trademark of the region. They are fun to see in person and also beautifully displayed in this book. The book gets to the heart of what life is like in this sophisticated oasis in the middle of the desert.

178 color and b/w color photos present mid-century modern architecture of Palm Springs, California. The desert environment and Hollywood stars inspired architects of the day to creative heights, including Donald Wexler, E. Stewart Williams, William Krisel, Albert Frey, William F. Cody, and Richard Neutra.
