Roads around Boquete are COMPLETELY wrong and many roads are NOT even on this map! found the same thing with ALL the roads south of David. I'm a good map reader and navigator. When we finally got out of the fields we were over 20 miles from where we should have been! I threw the thing away! Get a gps if you're going to drive here, there are no road signs, and apparently NO good maps! Terrible map coverage of Panama City by the way! Don't even try it!7 of 7 people found the following review helpful. Panama mapBy Jacquelyn DavisIt was difficult to locate an excellent detailed map of Panama where I live in Panama. When I looked on-line I found International Travel Maps and ordered 3 copies of this map of Panama. It is everything I hoped and I have already been asked by other friends for the information on how to get one for themselves.0 of 0 people found the following review helpful. If you're driving from Costa Rica to get to Columbia ...By Terry S.If you're driving from Costa Rica to get to Columbia or vice versa, this is the map for you. Not much use, otherwise. Still waiting for that special map that is actually a street map for the cities in the various provinces of Panama.

This map represents a major change, in that we have re-calibrated the scale on this title from the previous edition, and have discovered that the country is actually being shown in a significantly better scale than we previously were portraying. Although we have kept the same green parrot cover, the map is printed on a larger sized ITM plastic sheet. We have also completely redone the Panama City inset, and added a new expanded inset of the newly-touristic old town area.
