**Knopf Guides, Knopf Guides Staff : Paris (Citymap Guide)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Paris (Citymap Guide):

helpful without being too lengthy. and at this price, it's quite competitive with other maps while providing much more.0 of 0 people found the following review helpful. I love these guidesBy SJSI travel quite a bit and when I travel I try hard not to seem like a "tourist" no big bags, camcorder.. huge guide book and map. I love these guides because they're small and handy. I can pop them in my purse and when I need to pull it out, I don't look lost at all! I love how the guide is laid out by neighborhoods and they have recommendation for restaurants and shops etc.. I have a mapguide for Paris, London, Rome, Barcelona, Madrid and all have been so helpful. I recommend these guides for your next adventure.0 of 0 people found the following review helpful. excellent and very handyBy A CustomerMy wife and I used this guide for our 10 day visit to Paris. We had other guides with us, but this one was by far the most convenient and useful. You WILL want another more in-depth guide as well (this one just hits the high points), but for the maps and tips on the most important sites, this is the one to carry around (it DOES actually fit in the back pocket of my jeans).
