From Maps Popout : Paris PopOut Map (PopOut Maps) before purchasing it in order to gage whether or not it would be worth my time, and all praised Paris PopOut Map (PopOut Maps):

I've been to Paris multiple times and thought this pocket map would be good to have, but it's very difficult to read. I tried using it a couple of times, but it was useless since I couldn't read the teeny tiny words on the map. And, when you're "lost", you don't have the luxury of sitting down and pouring over the map to figure out where you are in relation to where you need to go. The basic metro map that I picked up (for free) in the subway was a better help than this map.0 of 0 people found the following review helpful. Out-of-date metro mapBy rompers uncleI ordered three popout maps for a recent EU trip and this one was the least useful.The subway map is really out of date (or just missing stuff).Admittedly, Paris is a gigantic city, but there's no excuse for something basic like the metro map not being reliable.0 of 0 people found the following review helpful. Like a previous review saidBy FenixThere's nothing "trully" wrong with the map, But... Like a previous review said, the font is very small to read (I have perfect 20/20 vision). We found ourselves not using this map at all and instead relying on the free ones you get at the hotel.Bottom line, yeah it's compact and inexpensive but we still didn't get much if any use from it.
