Parking Guide for New York City streets ~ from Battery Park to 96th street. This book will show you how to... * easily find free or meter parking on NYC streets * quickly identify overnight parking * benefit from holiday parking schedules * avoid getting ticketed or towed * beat a parking ticket * find the nearest gas station. Also included are 32 maps for 9 parking areas, alphabetical listing of streets, simplified reading of parking signs, official NYC parking rules, do's and don'ts of parking, what you need to know if you get a parking ticket or get towed, and who to call if you are in trouble.

About the AuthorDoris Blendinger, a native of Switzerland, has lived most of her life in New York City. She enjoys the city with all of the fun and extraordinary things it has to offer, from ethnic foods and gourmet shops to elegant dining, from a sidewalk exhibition in Greenwich Village to the world's finest museums, and from classical concerts to Broadway theaters and to the best jazz in the Clubs. In 1995 she planned this book. The first step was to map out the city and to define area boundaries based on prevailing parking laws and city streets. Streets have a variety of parking signs for two sets of customers: Private and Commercial. Since the private driver was her focus, she tailored her book to this audience. She untangled the complexity of parking signs and created this clear, accurate, and user-friendly street-map guide. Doris has become an expert on free and meter parking in New York City and shares with you all of her secrets about how to find the right place at the right time!
