Peru 1: 1,500,000 Travel Map, waterproof, GPS-compatible REISE 2014 edition This map is waterproof and tear-resistant, highly suitable for tropical climate of Peru, durable enough to survive time spent in the rucksack, pocket or on a restaurant table. It is double-sided to provide the best balance between a good scale and a convenient sheet size (size 100 x 70 cm / 39.5 x 27.5 in) with topographic and tourist information. Coverage includes most of Ecuador as far north as to Quito. The map combines clear road and tourist detail with relief indicated by contours, altitude and bathymetric tinting, and peak heights. Salt pans, swamps and glaciers are indicated. Road detail distinguishes unsurfaced roads and selected tracks and also shows intermediate driving distances on main roads. Main railways, ferries, airports, airfields and harbours are indicated and a range of symbols depicts many features eg. various antiquities and places of interest, lighthouses, notable churches, viewpoints, thermal baths. National parks, reserves and regional boundaries and names are also marked. The index includes archaeological sites, parks and reserves as well as locations. Longitude and latitude lines are drawn at 1 intervals. Multilingual legend includes English, high quality German cartography.
