Rob Rachowiecki : Peru - A Travel Survival Kit before purchasing it in order to gauge whether or not it would be worth my time, and all praised Peru - A Travel Survival Kit:

If you want to walk the Inca trail, explore the high valleys of the Andes, visit the islands in Lake Titicaca, boat down the Amazon or just sit in the shady plaza of an old colonial town - this book will tell you how to get there, what to see and the best places to stay and eat. The many maps and practical information make this the most complete guide to Peru.
