Thanks a lot!0 of 0 people found the following review helpful. Good valueBy BDesmondVery nice0 of 1 people found the following review helpful. Pleasant viewingBy G. PetersPERU (Exploring Cuontries of the World) is a very pleasant book of photographs and some written description and other information. It is pleasant to look at and read, but not as informative as I would have liked.

From the awe-inspiring ruins of Machu Picchu to the bustling metropolis of Cuzcothe country's capitalfrom dense

subequatorial rainforests to the snowy peaks of the Andes Mountains, this volume transports readers to a land with a tumultuous history and deeply rooted spiritual legacy. Armchair travelers explore ancient archaeological sites deep in the jungle, travel on the highest railway line in the world, and admire the meticulous construction of mysterious cities built of stone. With its accessible text and vibrant photographs, this book provides an excellent introduction to the fascinating country of Peru.

About the Author On behalf of the Ministry of Foreign Trade and the Centro Studi e Ricerche Ligabue of Venice, archaeologist and ethnographer Mario Polia is the head of a research program in Peru on native traditions. He is also curator of the Anthropology Museum of Leonessa in Rieti. Winner of the Paolo Toschi Award in 1999 for field research, he has lectured on Medical Anthropology at the Catholic University of Lima.
