Compact, pictorial guide to birds I might see on my travels in Peru. Lightweight and waterproof too. I'm a real beginner birder and carrying a bulky, heavy bird guide full of TMI for me can be a real drag.

Peru's diverse habitats are home to more than 1,800 species of birds. Rainforest Publications field guide shows 242 of the more commonly seen birds that make a living in Peru. Species are named in English, Spanish, and Latin. The illustrator, Robert Dean, specializes in drawing the birds he observes in the wild every chance he gets. This is a highly portable waterproof full color scientifically reviewed wildlife field guide;.... When folded, the guide is only 3.5" (9cm) by 8.75" (22 cm). It contains twelve 9cm by 22cm "pages" plus front and back cover pages, and when spread is approx. 24" (61cm) by 8.75" (22 cm) Our wildlife guides are the perfect companion if you're a naturalist, bird watcher, or adventure traveler.
