I will start my review by saying I always buy the DK guides for everywhere I go. However I never just buy one guide for any trip and this is the first time I have done so and I have come to realize how lacking they are. This is not to say I will stop buying them and I will tell you why.  
Pros: The pictures. Nothing beats these guides with the pictures. Trust me. When you go to Machu Picchu and someone says did you see the tres ventanas and you go "I hope so" well you won't hope so with this guide b/c this guide will show you what the tres ventanas looks like. In Peru they have these HUGE churches. And each church has like dozens of these rooms of altars. But the most famous is "el negrito" maybe you are like me and just aren't into the church thing but want to see what the big deal is but don't want to miss the big must see with this guide you will make sure you won't. And in these churches you can't take pictures. So when you get back you can show your friends what you saw. Brilliant.  
The restaurant recommendations were excellent if a little pricey.  
Cons: The maps suck. The map of Lima was pretty good but there were none for any other cities. None of Cusco and that is a major city! Cusco is studiously a maze, but some sort of map would have helped. And it is short on information. It doesn't tell you how to get anywhere. I wouldn't have known to get a train from Cusco to Machu Picchu that I couldn't take my suitcase on the train (or that I would be charged a HUGE fee to do so) how to buy tickets for the bus to get up to Machu Picchu (which is sort of complicated) or that some places to climb in Machu Picchu are limited to 400 persons per day so you should arrive early (like 4:30 am early). This is important since this is the most major site of Peru! It didn't tell me about other ruins to see, or other cities, or give good itineraries, or how to travel around. Just that taxis were bad. Which they actually weren't. I never realized how limited in info and scope in actually getting around these guides were when this was the only guide I took. I was lucky that I had a limited amount of Spanish and people in Peru were really nice and kind of directed me around told me what to see and what not to see.  
Bottom line: I still say to buy these books b/c I think they help you find what you are trying to see, but I also say check out the web and print out itineraries, information on how to get somewhere, or other info that you can discard so it doesn't weigh you down later!

By R. Patel  
First off, let me say I love DK Eyewitness Guides for their glossy paper and color. Secondly, I'm an avid world traveller. The average traveller to Peru is not going to find great use of this guide - but it's a nice guide to have to get a visual feel for the country. For ex., the book devotes about 50 pages to Lima, a city most visitors use as a transit hub and nothing else. (Mind you, I do actually think Lima is a lovely city worth exploring, but I'm severely in the minority). The Inca Heartland, which is where your average traveller will spend the bulk of their time, gets 30 pages out of a 350-page book. Forget the pitiful attention divided among the remaining destinations like Trujillo, Puerto Maldonado, Nazca or Lake Titicaca. Unless you have everything arranged in a tour, you won't find this guide useful outside of Lima in practical terms. But again, it's a very pretty book.

I was given the Egypt (Eyewitness Travel Guide) and found it excellent, full of information not available in other guides. It was very helpful both before and during my time in Egypt. Because of this, I purchased the Peru guide without hesitation. It is an equally clear and comprehensive guide about Peru, not only places to see but the people and customs. Also, it has a lot of other information (hotels, embassies, etc) that is very useful to a traveler. The diagrams, maps and pictures are in color and add to the written sections. I recommend it highly.

Whether you are planning to visit a city, a region or a country, DK's foolproof 'Eyewitness' approach makes learning about a place a pleasure in itself. All the traditional guidebook subject matter is covered - descriptions of sights, opening times, hotels, restaurants, shopping, entertainment, phrase books etc - but, with the help of specially commissioned illustrations and maps, DK makes essential information easy to access and quick to absorb. No other guides explain the history of a place as clearly in words and pictures. DK Eyewitness Travel Guides - the best guides ever created. Continuing to expand our South American coverage, this beautifully illustrated Eyewitness guide will be the premier travel book to Peru, with complete coverage of Lima, the Amazon Basin, and, of course, Machu Picchu. Whether your interests lie in floating on Lake Titicaca, watching the condors soar at Colca Canyon or experimenting with South American cuisine, DK Eyewitness Peru will help you find the essence of the Andes.

It is packed with photographs, illustrations, and maps. Provides an in-depth look at the Inca Trail and Jungle Shows cutaways and floor plans of all the major sights. Lists a huge selection of hotels and restaurants. Lists sights, museums, markets, and festivals town-by-town. Provides street-by-street walks and thematic tours. Just opening the book entices the reader into exploring Peru in great detail - and with such incredible photos! The book shares Ancient sites, crafts, restaurants, maps, architecture, museums, cathedrals, rainforests, mountains - it is TRULY a guide that shows you

what others only tell you. --WanderingEducators.com
