Ben Box : Peru Handbook, 7th: Tread Your Own Path (Footprint Peru Handbook) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Peru Handbook, 7th: Tread Your Own Path (Footprint Peru Handbook):

2 of 3 people found the following review helpful. Footprint Peru Handbook By Douglas A. Arana This is a great book guide to take with you. When traveling to Peru. It has maps, and among many other things it is very informative about the local currency, culture, slang, etc. It was very helpful to me on my first trip. I recommend this guide for the first time traveler to Peru. It's a must have with you on the trip. 23 of 24 people found the following review helpful. Solid and practical information By Casey Allen I have used the all-encompassing "South American Handbook" also by Footprint with great success, and this was my first attempt at a specific country guide. I was impressed with the useful and in-depth information regarding each city or town that I visited. The accommodation, food, and entertainment suggestions were spot-on and always just as it said. The only thing lacking for me was the, um, somewhat skimpy coverage of some of the ancient sites. For example, the suggestion to take a taxi to the ruins of Tambo Machay and walking down to the city (Cuzco) was wonderful, but information pertaining to the specific sites on the way down (Tambo Machay, Puca Pucara, Quengo, and Sacsaywahyman) was restricted to a sentence (or less) each. Low down: if you want spot-on guidebook for lodging, food, and entertainment listings, and are not as interested in the cultural sites, ruins, museums, and other things to do, this would be a perfect book. If you do want more of the ruins, cultural sites, etc., I would suggest another supplemental guide, perhaps. 13 of 15 people found the following review helpful. The best on Peru. By Michael White Clara Bravo The most experienced writers on South America produce the most complete, objective, relevant, orderly, up-to-date guide book on Peru, now also with the clearest maps. It has more detail on areas of growing interest like El Brujo, Chachapoyas Huamachuco, newly opened sites like Caral, getting to them, than any competitors. Footprint includes websites still lists individual tour guides, while Lonely Planet includes out of date email addresses hopes you will buy services from hotels travel agents on their website. Cuzco is already saturated with tourists information, it is time other areas of Peru be made known in this way. It should be pointed out that Footprint has Cusco The Inca Heartland, 3rd Edition (Footprint Cusco and the Inca Trail) by Ben Box (Paperback - May 25, 2006), to supplement the info in the Peru South America books.

This is the only guide for free-spirited travelers who want to get beyond both the Gringo and Inca trails. Activity-packed for thrill seekers visiting the country, this book takes you surfing, whitewater rafting, and hiking through the heart of this fascinating land. It includes a comprehensive background section detailing all you need to know about the ancient culture and history of Peru.

"Recommended without reservation." Daily Telegraph; "A fabulous resource." Conde Nast Traveler About the Author Ben Box has been series editor for the South American Handbook since 1989 and he has also been involved in footprint Central America Mexico, Footprint Caribbean Islands, Footprint Peru and Footprint Cuzco the Inca Heartland.
