From Insight Guides : Peru (Insight Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Peru (Insight Guides):

ThomasAs a photographer, I am partial to travel guides with lots of good pictures in them. It's why I have never liked the Lonely Planet guides with their skimpy supply of black and white pictures. The Insight Guides and the DK Eyewitness Guides top my list. This Insight Guide doesn't disappoint. Besides it's excellent coverage of the cities, towns and special places of Peru, its first 135 pages - which it calls Features - are a wonderful overview of the history, culture, food and wildlife of the Andes. An excellent

way to get acquainted with Peru before you travel there and very readable. Well done, indeed!0 of 0 people found the following review helpful. The book was in great condition, and from what I've looked at, it is up to snuff with other Insight Guides.
