Most of the information this pamphlet provided is readily available for free on the internet. The contents were very minimal but accurate. So minimal was the information that the pages were not numbered! From memory it would be safe to say that there were approximately 50 pages max...more or less! However I do know this... there were no illustrations, no photos, and no maps!Don't waste your money...it's an AMBUSH!Needless to say I returned this for a refund.2 of 2 people found the following review helpful. Recommended for anyone looking to get into the mood for ...By Richard StevensThis book really gives you a feel for Peruvian culture before going into the specifics of how you can get there and where to stay. Plenty of pictures, and discusses plenty of attractions. It really gets you into the mood. After that, it gives you the details of potential accommodation and ways to get there. Recommended for anyone looking to get into the mood for traveling to South America.0 of 0 people found the following review helpful. Good unique travel guideBy DenmarkTGThis was a solid travel book, as I have been wanting to travel to Peru and Argentina. It was unique as it really focused on the time you would spend there in Peru and what other people thought was the best things to see. The history element was also nice. It is not as comprehensive as some of the other series though done by the major travel book firms, but for someone looking for off the grid and basic survival tips, it is solid choice. ***

Congratulations! Youve found The Ultimate Travel Guide To Peru.Why You Need Lost Travelers First we would like to thank you for considering Lost Travelers as your guide book. Allow us to explain our beginnings, and the reason we created Lost Travelers. Lost Travelers was created due to one simple problem that other guides on the market did not solve; loss of time. Considering its the 21st century and everything is available on the internet why do we still purchase guidebooks? To save us time! Thats right. Since the goal is to be efficient and save time, we did not understand why there are several guidebooks on the market that are of 500 to 1000 page long. We do not believe one needs that much bluff to get an overview of the location and some remarkable suggestions. Considering many guidebooks on the market are filled with suggestions that were sponsored for, we have decided to take a different approach and provide our travelers with an honest opinion and decline any sort of sponsorship. This simply allows us to cut off any nonsense and create our guides the Lost Travelers style.Our mission is simple; to create an easy to follow guide book that outlines the best of activities to do in our limited time at the destination. This easily saves you your most valuable asset; your time. You no longer need to spend hours looking through a massive book, or spend hours searching for information on the internet as we have completed the whole process for you. The best part is we provide you our e-guides for one third the price of the leading brand, and our paper copy for only half the price.
