**Mike Eisner : Photographic Rendezvous: Musandam Oman** before purchasing it in order to gauge whether or not it would be worth my time, and all praised Photographic Rendezvous: Musandam Oman:

I never thought I would ever experience the grandeur of the Sultanate of Oman. My eyes were treated to what I could only describe as popping eye candy. We sailed by some dramatic limestone cliffs that seemed to melt like cheese into the ocean. The sky was a rich hue of blue which mixed with the deep blue of the ocean and the many tones of ochre, gold and beige. This made for an orgasmic color ecstasy in my mind. The colors continued to enrich and enlighten as I was treated to such dramatically beautiful panoramas. I couldn't take it all in, the landscape was simply more glorious than I had ever experienced. This was Musandam Oman! Join me for this breathtaking installment of the Photographic Rendezvous Series. This latest edition includes over 100 stunning photographs along with photo captions in both English and Arabic.
