ParisBy ToolguyAbsolutely indispensable if you plan on spending a lot of time in Paris and do not have a smartphone/pad with some kind of map app. Even if you do have a smartphone, this is an indispensable backup. Highly recommended especially for the price. Used is as good as new as practically nothing has changed for decades.2 of 2 people found the following review helpful. Best Map of Paris - Don't Leave Home Without It!By DMCSTotally indispensable for any traveller unfamiliar with the Paris area. Having not been to Paris for several decades, this guide made it extremely easy to find every place we needed and quickly find all of the appropriate Metro stations. Very detailed. Although completely in French, this was not a problem. Convenient size - fit into a woman's pocketbook or jacket pocket. The vendor, Multiple Pages, was very accommodating. We needed this map before the estimated ship date and the vendor made sure that we received the booklet well in time for our trip. Don't go to Paris without this!1 of 1 people found the following review helpful. Great metro and arondissement maps. Get a magnifying glass!!By MinamintThe year that was advertised was not the year I received. Not much difference so I wasn't too worried. This guide of maps is indispensable for traveling around Paris.
