Audio-Forum : Practical English for Arabic Speakers (text only) before purchasing it in order to gauge whether or not it would be worth my time, and all praised Practical English for Arabic Speakers (text only):

By CI got this as a little gift for the mother of one of my students who is here visiting for the semester from Saudi Arabia. She did not speak a single word of English, and now only a few weeks later, I visited them and she greeted me in English and was speaking to me! I could not believe it! She said she reads the book every day, and that it is fun and easy. If you want

something that's inexpensive, super easy to use, and can just be picked up by any Arabic speaker, this book is PERFECT. The explanations and directions are all in Arabic, and the pictures are helpful as well. Wonderful, wonderful gift for any Arabic speaker visiting the U.S. and wanting to learn conversational English. 0 of 0 people found the following review helpful. okBy fredit is OK for beginners .3 of 4 people found the following review helpful. I got burned tooBy SerenaI wish I would have read the review before I purchased this item - BECAUSE as the other person indicated - while the description clearly classifies this item as an AUDIO-BOOK ---- there is only BOOK no AUDIO!!!
