Great Start at Learning JapaneseBy Janet DykstraGot this book as I was taking a local class in conversational Japanese. The book is well organized and well written. Very easy to understand, even for a novice like myself. I would recommend this book to anyone, even someone who is just interested in possibly trying to learn Japanese. This book is an inexpensive way to see if a person is able and interested in pursuing the language study further. If nothing else, you will learn a few useful phrases. Try it, it is a great book.0 of 2 people found the following review helpful. Wrong AuthorBy random posterIt is a decent book, but the author is not the Jun Maeda who works for Key.
