It was very inspiring to me that we have young people in today's world that have so much going for them. I would recommend this book to any age, and especially people in the 18-30 year range. I love a positive, can-do outlook. 0 of 0 people found the following review helpful. Awesome book! By AxelI went through this book in one session due to the thrilling story and refreshing writing style. For some this book may be depressing because it makes them question their own life. However for the majority of the readers it will most likely have a motivating impact (just as on me). This book and story makes you want to pack up your car and head out to experience the ultimate freedom. It celebrates the almost unlimited possibilities of the 21st Century and encourages to pursue your dreams. 1 of 1 people found the following review helpful. A great book by a couple of very inspirational young people. By Avid ReaderWhat a great, inspirational, fun read! Following their hearts, these two dreamers set out to chase the largest professional mountain bike series in North America during the summer of 2014. The epic journey has them living out of a used van for 90 days as they drive over 15,000 miles on an almost nonexistent budget.
