David Chaddock : Qatar - A Companion (Companion Guides) before purchasing it in order to gage whether or not it would be worth my time, and all praised Qatar - A Companion (Companion Guides):

The only travel guide that exists for the oil-rich Persian Gulf state of Qatar, a major hub for business travelers and expatriates.David Chaddock explores the markets and general way of life, as well as advising newcomers on settling in

and how to run a successful local business. An essential guide no other exists.

About the Author David Chaddock: David Chaddock is an engineer by profession and international businessman by vocation. David has worked in developing markets for more than thirty years. He started in West Africa in 1970 and moved, via the Far East, to the Middle-East in 1976. He has lived in six different countries in the region, and worked in most of the others, developing new markets for British, American and French industrial manufacturing companies.
