1 of 1 people found the following review helpful. Already out of date By Reckless DC Music What this book knew, it knew. But Qatar is exploding in it's growth and this book was fairly out of date in some areas. nevertheless it was a helpful and useful guide to get started in exploring this country. And there is really nothing else on the market at this time. So it is okay to settle for it and then do some additional research

The little book that packs a big punch, the Qatar Mini Visitors' Guide may fit in your pocket but it's bursting with information on this emerging island nation. With excellent maps to aid exploring, a comprehensive shopping chapter with insider info on the best buys, details of sports and spas, and reviews of restaurants and the nightlife, this is an

indispensable guide to an one of the most fascinating countries in the Gulf.
