This must-have, interactive atlas will help children learn about the countries of the world. Provides an introduction to geography, capital cities and world landmarks ranging from the statue of the Little Mermaid in Copenhagen to the Kennedy Space Center in Florida.

'A lovely way for children to learn about the countries of the world - and this is a brand new edition so bang up to date' - Parents in Touch; 'GOOD POINTS: An impressive and very educational interactive reference book for school-aged children. In our opinion, this is a truly fantastic (and reasonably priced) sticker-based reference book, that teaches

young children about the most famous sights in the world in a fun, interesting and educational way. BAD POINTS:
