ThompsonI got this map to help me get to know Portland and the getting around of the city. I got some guidebooks, PDXcentric and Portland is Weird as well as this map and have been biking and taking the MAX around and seeing all the fun stuff I learned about in PDXcentric.I like the convenient size of this map and its durability for banging around in my pack. It has a light rail inset which is useful. However, there are major streets left out and it isn't highly detailed in neighborhoods outside of the downtown core. If you are just visiting and want to have the big picture this map is good enough. For someone who is new to town and wants to get to know the neighborhoods it doesn't really cut it.1 of 1 people found the following review helpful. Easy to use and will last.By Lynne SI bought this primarily because it is laminated and won't fall apart. We visit our son in Portland often and wanted something sturdy. One side of the map has a detailed map of the city as well as the downtown area. The reverse side has a more general view of the Portland area suburbs and a map of the MAX light rail line. If you aren't going to rent a car and want to use public transportation, this map would be a must have. When it is folded, it is 8.5 in. tall and 4 in. wide so it won't fold up really small but will definitely fit into a backpack or purse.0 of 0 people found the following review helpful. "Dont leave home without STREETWISE" -- New York Times"STREETWISE is an absolute travel essential" -- Travel Leisure"In a strange city, your sense of direction is only as good as the map in your hands. The best maps to carry are published by STREETWISE." --Chicago Daily HeraldAbout the AuthorSTREETWISE is the first map to be designed with modern graphics and is the originator of the laminated, accordion-fold map format. We ve set the standard that every map company has imitated but never duplicated. Our mission is to make you feel comfortable, to make you feel safe in a place where you ve never been before and to enable you to experience a familiar place more fully.The company was founded in 1984 by Michael Brown, who had been in international publishing for many years, setting up subsidiaries for textbook publishers. In the 1970 s, Brown traveled extensively throughout Africa, India, the Middle East and Southeast Asia. Brown would take a large paper map, cut out the city center, folded it up and slip it into his pocket, thus preventing him from looking like a tourist in areas where discretion is the better part of travel. This was his tool for surviving.After many years on the road, Brown settled back in New York and decided to start his own business, based on the adaptations he had made to maps in his travels. His goal was to give someone the ability to navigate easily in unfamiliar terrain.He started with a new map format: the accordion fold. Such a simple idea, but at the time it was revolutionary. No more struggling to fold an awkward, oversized paper map. This new format would enable the user to blend in like a native, instead of stick out like a tourist. Brown then added lamination to ensure that the map would be a lasting tool.More important than the format was the design of the map itself. It had to be a map that not only succeeded above and beyond any map he had used, but was esthetically appealing as well. The look of it had to be as striking as the functionality. Color was introduced in a way that was never seen before in a map - vivid purple for water, soothing gray for the background of street grids, gold to highlight elements of the map. Clarity, conciseness and convenience in a very stylish package.Building the business was a 24 hour job. Brown sold the maps during the day, zipping around Manhattan making deliveries on his Harley Davidson. At night he packed the orders and did the design work. More titles were added, each title requiring months of research and design.Today,

STREETWISE produces over 130 titles for major destinations, regions and countries throughout the United States, Canada, Mexico, Australia, Europe, the United Kingdom and Asia. We have grown from the back of a motorcycle to selling millions of maps around the world. Yet each title is still painstakingly researched and updated. STREETWISE is one of the only, if not THE only map company that conducts research by walking or driving an area to ensure accuracy. After all, what good is the map if what you hold in your hands doesn't match what you see on the street sign? This lengthy fact checking results in superior accuracy; in effect, we've done the work, now you have the adventure. In the end, it's not about the map, it's about getting out and finding your own authentic experience wherever you go. It's about being in a city or a region and discovering things that you never thought you would find. You can do this if you have confidence and you have confidence if you have a great map. STREETWISE is the great map that you need.
