Or Maybe the book was used.5 of 6 people found the following review helpful. AtlasBy StitcherhmThis is a very good Atlas with many different views of the world. However my copy arrived with a bad bend in the lower right hand cornor that goes all the way to page 67. I would advise .com to change the way this book is shipped so that this does not happen to anyone else.1 of 4 people found the following review helpful. Amazing!By RickyIm very pleased!!!!
