1 of 1 people found the following review helpful. verry old map sold as a new one - attention!By B. ConradAttention!This map about Suriname and French-Guiana is based on data which are about 10 to more than 16 years old! A lot of informations are missing or wrong! I lived in both countries for several years, wrote a book (in German) about French-Guiana and will publish two books about both countries this year in Germany. The last data I am using for to compare the maps of itmb are from 2009. If you will use this map you will really wonder about the reality!It's a shame to edit such an old map as a new edition!

An easy-to-use road map of Surinam and French Guiana to plan your trip, to prepare your itinerary, and to travel independently in these countries in South America. Inset maps of Paramaribo, Cayenne, and Kourou.
