Great for people who love to shopBy Zadir Zaltsman TeenwolfThis edition wasn't quite as fabulous as the one I bought a few years ago, but it still is the only book like it out there. It is a great shopping guide. It is so different than those travel books that read like phone book listings on apparel and accessories. Suzy, you will be missed!0 of 0 people found the following review helpful. Born to Shop ParisBy ROBERT VAN GOETHEMTravel is on our agenda. my wife wants to see Asia and Europe. AndereggI am a fan of suzy gershman and have bought this book before. I bought this as an update and found it almost the same...not much new so if you have bought this book before it is not necessary to buy it again. the book itself is well written and is of good use in Paris.
