**Hema : Sydney Greater (Hema Maps Major Cities)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Sydney Greater (Hema Maps Major Cities):

The extended coverage of the Greater Sydney Map will be appreciated by anyone planning to tour this area. The suburban map extends north to Gosford, south to Campbelltown and Stanwell Park, and west to Penrith. It features all major and secondary roads and shows the metroads, national and state route numbers as well as present and future freeways. The reverse side shows a map of Sydney Region at a scale of 1:290 000 with place name index; Sydney City Centre; CityRail Network Map and Sydney Ferries Network Map
