Nice map for walking around SydneyBy Travis IlligI took a business trip to Sydney and wanted something I could stick in my pocket and easily walk around with. This was perfect and came in handy many times. It's small enough to fit in your back pocket but unfolds to a nice size so you can see everything you need. Only way it could be better would be if it was made of cloth because I carried it around so much the corners of the paper started getting a little frayed. Not a problem with the map, just shows how much use I got out of it.Next trip I go on, I'll be looking for a map from this series so I have the same convenience wherever I go.

Get Sydney condensed into a pocket-sized parcel. The Sydney Mini Map includes an overview vector map of the city, along with detailed maps of the key areas.
