Shelly Rivoli : Take-Along Travels with Baby: Hundreds of Tips to Help During Travel with Your Baby, Toddler, and Preschooler before purchasing it in order to gauge whether or not it would be worth my time, and all praised *Take-Along Travels with Baby: Hundreds of Tips to Help During Travel with Your Baby, Toddler, and Preschooler*:

2 of 2 people found the following review helpful. *Take-Along Travels with Baby: Hundreds of Tips to Help During Travel* By Gwen Vanderpool Prompt service, package arrived in good condition, book arrived in good condition exactly as it was described, will definitely go with this company again in the future!! During our flight from Hawaii to New York and then to Texas and then returning to Hawaii in August 2012 we had several changes of planes and airports and several delays, flight cancellations, etc. These are not made any easier when you have a 15-month old baby, and are traveling with a carseat, stroller and baggage. We kept this book in the diaper bag and made very good use of it. Now it will be the first thing we pack!! Also recommend you to buy bottles/cartons of milk after you get through security, it will help you speed things up, and don't rely on the plane having milk or the flight attendant getting you some when you need it. Little ears need help going up and coming down, be ready! 1 of 1 people found the following review helpful. A must have for traveling abroad By beckaboard I am still reading this book as well as the larger version and will re-read I'm sure. It's so helpful. This coming from a seasoned traveler who works as an entertainer on cruise ships for over 10 years. I now have a 10 month old baby who is joining me and her father on many of these contracts. We go to every port conceivable, all over the world. The detail is absolutely wonderful in assisting with everything from medical advice abroad to how to get through screening effectively. Really, really great product. Highly recommend. 0 of 1 people found the following review helpful. It was alright.. By MamaJ Just basic tips. We had travelled with kids before, and I'm not sure why I thought this book would make things any better. Maybe good for a first time traveller with kids, but I regret the purchase.

From the author of the award-winning guide *Travels with Baby* comes this pocket-size survival manual for parents traveling with small children. Packed with hundreds of on-the-go tips, parents get quick access to the information and advice they need as they travel, including: babyproofing hotel rooms or vacation rentals on arrival, keeping babies happy in the back seat, managing toddlers on airplanes, translating various baby items and conversions while traveling abroad, and finding medical help or remedies far from home. Age-appropriate games and activities also help keep babies, toddlers, and preschoolers entertained in transit. Plus special sections help parents organize their travel details for each trip and also make it easy to fill in the blanks and log favorite family moments along the way.

Parents traveling with young children universally dread certain sounds: their baby screaming on an airplane, the chorus of *Are we there yet?* from preschoolers and the *uh oh...* from a potty training toddler that indicates an accident. Shelly Rivoli knows this from experience, and has created a companion volume to her award-winning *Travels with Baby* trip planning guide. In *Take-Along Travels with Baby: Hundreds of Tips to Help During Travel with Your Baby, Toddler, and Preschooler* (*Travels with Baby Books*, 978-0-9831227-0-8), Rivoli takes parents from the planning stage to the car, airplane, and hotel room. The expected suggestions for entertaining children are here, but there are also tips for getting through long lines quickly, installing rental car seats, hiring local babysitters, and more. Many parents will find this guide indispensable on their trips, and may even benefit from keeping it in the diaper bag to have handy next time they find themselves in backed up traffic or waiting to pick up the older kids from school. --ForeWord Magazine Winner of the Rising Star award from National Parenting Publication Awards (NAPPA) --National Parenting Publication Awards About the Author Shelly Rivoli has changed diapers on four continents and continues to travel with her husband and three young children as often as she can. She is the author of the award-winning guide *Travels with Baby: The Ultimate Guide for Planning Trips with Babies, Toddlers, and Preschool-Age Children*, which received a Gold Award in Parenting Resources from the National Parenting Publication Awards (NAPPA) and was a finalist for two Book of the Year awards from ForeWord Magazine recognizing outstanding independent publishing. Her travel tips and advice have appeared in national magazines and newspapers, and she has made appearances both on radio and television on the topic of travel with young children. Ms. Rivoli continues to blog yet more travel tips and anecdotes in her *Travels with Baby Tips* blog. When not traveling, she hangs her hats as mother and writer in the San Francisco Bay Area.
