Cynthia Harriman : Take Your Kids to Europe: How To Travel Safely (And Sanely) In Europe With Your Children before purchasing it in order to gage whether or not it would be worth my time, and all praised Take Your Kids to Europe: How To Travel Safely (And Sanely) In Europe With Your Children:

0 of 0 people found the following review helpful. Gives you a lot to think about when planning your Extended Family Trip to EuropeBy George F. WenchelThis book is well organized and quite thorough and designed for people who plan on taking the family to Europe for a semester or the whole summer. There are lots of good references and links on the Kindle version. The information is solid and using the planning methodology will work in future years. This book will hold its own over time, but periodic updates (currently on the 8th edition) make it even better.0 of 0 people found the following review helpful. Two StarsBy MurphySantosHard to read and the information inside really you can get

online. Would not buy again0 of 0 people found the following review helpful. Better Than ExpectedBy CustomerThis book has great information for families travelling to Europe. The content is very focused and doesn't repeat information found in other general guidebooks. Want to know how to sleep a family of 4 or more, or how to travel depending on age and number of children in your group? Look no further.

From planning and survival tips to youth hostels, restaurants, camping, language, and renting homes, this guide makes it possible to take the kids to Europe safely and, perhaps more importantly, sanely.

"Finally there is a get-down-and-dirty manual for traveling with kids in Europe! [This book] is fun to read and filled with practical tips for traveling families...[with] limited budgets."--Rick Steves, Europe Through the Back Door
