**Talk Now : Talk Now! Khmer** before purchasing it in order to gage whether or not it would be worth my time, and all praised Talk Now! Khmer:

It's no Rosetta Stone, but considering there are limited options out there for learning Khmer, this one is pretty decent. I studied it a bit before I moved to Cambodia, and then I got a Khmer tutor. I felt like the knowledge I gained from Talk Now helped me in the tutoring process to already have a head start. I'd recommend it.0 of 0 people found the following review helpful.
