**Research Professor David L Pearson : Thailand (Travellers' Wildlife Guides)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Thailand (Travellers' Wildlife Guides):

0 of 0 people found the following review helpful. Excellent, basic colored guide. By ESExcellent guide! Great full color illustrations. Can't wait to use it on the trail, thanks! 1 of 1 people found the following review helpful. Thailand: Traveler's Wildlife Guide By James S. Mastaler Not recommended. I wanted a dense book to take with me to Thailand

that would allow me to identify a fair number of birds, plants, insects, etc. However, the number of plants in this book is too small to be helpful and the illustrations aren't a good substitute for photographs. It would be better to get a plant book, a bird book, etc. and just carry around half a dozen books, which I eventually did, having not successfully identified more than 1 bird, using this book. 0 of 0 people found the following review helpful. Really love this book By CW Really love this book. Was too heavy to bring with us though, unfortunately, so I studied it before and after our return home.

- Identifying and location information on the most frequently seen animals - Full-color illustrations of nearly 600 of Thailand's most common insects, amphibians, reptiles, birds, mammals, and coral fish - Up-to-date information on the ecology, behavior, and conservation of the animals - Information on Thailand's habitats and on the most common plants you will encounter - Brief descriptions of Thailand's most frequently visited parks and reserves Easy-to-carry, entertainingly written, beautifully illustrated-you will want to have this book as constant companion on your journey.

About the Author David L. Pearson is a research professor in the School of Life Sciences at Arizona State University. He is co-author of *The New Key to Ecuador and the Galapagos* and of *Ecuador* in this series. Les Beletsky is a professional wildlife biologist and former university zoology teacher. Prior to taking up writing wildlife guides, he conducted many years of field research into the ecology and behavior of birds. He is the author of numerous books, including *Costa Rica*, *Ecuador*, and *Peru* in this series.
