From Aboriginal Studies Press : The AIATSIS Map of Indigenous Australia before purchasing it in order to gauge whether or not it would be worth my time, and all praised The AIATSIS Map of Indigenous Australia:

0 of 0 people found the following review helpful. Too small; tiny print; flimsy paper; poor value By TedR Two stars is a gift. Great idea, but very poor value for the price: map is way too small for the size of Australia and the details depicted, resulting in tiny, tiny print. Paper is thin and fragile. I wouldn't pay more than a couple of bucks for it.

The highly popular AIATSIS map of Indigenous Australia is now available in a compact, portable A3 size. Available flat or folded (packaged in a handy cellophane bag) it's the perfect take-home product for tourists and anyone

interested in the diversity of our first nations peoples. The handy desk size also makes it an ideal resource for individual student use.
