New printing not up to previous printing,,,By Allen HedgesDisappointed,,,,the cover has nothing to do with the contents of the book,,,and being printed in italics makes it harder to read, delivery was beyond belief,,,,,it was printed and delivered in the fastest time I have ever seen,,,,,just this printing was not easy to read,,,,,

The great nature writer, Ernest Thompson Seton produced another nature classic with this work which details the author's adventures in northern Canada while on an expedition to study the wild caribou. In the author's words. "In 1907 I set out to journey by canoe down the Athabaska and adjoining waters to the sole remaining forest wilds--the far north-west of Canada--and the yet more desert Arctic Plains, where still, it was said, were to be seen the Caribou in their primitive condition."

From the Back Cover  
In 1907, Ernest Thompson Seton, self-made outdoorsman, embarked upon a 2,000-mile, six-month canoe journey across northern Canada in search of the caribou. What he found was lazy Indian guides, swarms of mosquitoes, and frontier characters galore... as well as abundant wildlife, lush vegetation, and singular experiences such as hunting buffalo and acting as medicine man in remote villages, all of which he shares with us with a dogged spirit and an unflagging enthusiasm. Illustrated with dozens of Seton's charming line drawings and numerous photos of lost places and a time now almost forgotten, this is a hearty, real-life adventure yarn to appeal to the little boy in all of us.  
About the Author  
Ernest Thompson Seton (1860-1946) was a British-born author, wildlife artist, cofounder of the Boy Scouts of America, and an early pioneer of the modern school of animal fiction writing whose best-known book is "Wild Animals I Have Known."
