before purchasing it in order to gauge whether or not it would be worth my time, and all praised The Balkans Classic [Tubed] (National Geographic Reference Map):

0 of 0 people found the following review helpful. Great map and coverageBy D. Ballthe ideal scale for a map of this size all the major towns are listedindispensable for Balkan history and travel

The Countries of the Balkans wallmap features thousands of place-names, political boundaries, national parks, and major infrastructure networks such as roads, canals, ferry routes, and railroads. The region's diverse terrain is detailed through shaded relief, coastal bathymetry, and symbols for water features and other landforms. Elevations of major peaks as well as depth soundings are expressed in meters. The signature Classic style map uses a bright, easy to read color palette featuring blue oceans and stunning shaded relief that has been featured on National Geographic wall maps for over 75 years. The map covers Albania, Austria, Bosnia and Herzegovina, Bulgaria, Croatia, Hungary, Kosovo, Macedonia, Moldova, Montenegro, Romania, Slovenia, as well as the outlying border countries of Greece, Italy, Slovakia, Serbia, Turkey and Ukraine. It also includes listings for the counties of Hungary and Romania along with their respective capitals and the administrative divisions of Bosnia and Herzegovina. The map is packaged in a two inch diameter clear plastic tube. The tube has a decorative label showing a thumbnail of the map with dimensions and other pertinent information. Map Scale = 1:1,948,000 Sheet Size = 30.25" x 23.5"

About the AuthorFounded in 1915 as the Cartographic Group, the first division of National Geographic, National Geographic Maps has been responsible for illustrating the world around us through the art and science of mapmaking. Today, National Geographic Maps continues this mission by creating the world's best wall maps, recreation maps, atlases, and globes which inspire people to care about and explore their world.
